About us.

FLIPP® in support of the
brands.

FLIPP® is opening toward creators

Established in the beginning of year 2021. as a side, hobby business of three like-minded individuals, the company exists, because its love of art and the wish to support Bulgarian creators. In the beginning we turned the ideas into prototypes, prototypes — into finished product with patent and certifications demanded by EU. Today the company takes bigger part of our time. It uses now fully the production and development facilities of our main activities: advertising, marketing, computer programming, printing plant, lasers, CNC and other equipment. After our success here we are ready for expansion in EU and USA.

The decision to open our company toward art creators we took after walked trough the whole process from idea to the realization of a ready product at European market. This is quite a difficult process, even considering our experience and that of our team of lawyers. Now we are able to eliminate this bureaucratic barrier for every author, wishing to see its art on the market. We are sharing all our accumulated knowledge. Our production facilities and our team of more than 40 professionals.

-  20+ years of experience
